

Pine Run Lakeview Re-Opening Prerequisites  
 Implementation Plan  
 Date: August 17, 2020

Develop a Re-Opening Implementation Plan	This will be posted on our website. <a href="http://www.pinerun.org">www.pinerun.org</a>	Effective 8/17/20
A Testing Plan:	Baseline Universal Testing of all Residents and staff:	<p>Universal Testing began 6/29/20 and final tests were obtained 8/4/20</p> <p>Last COVID positive Resident was 7/14/20          Last COVID positive Associate was 7/9/20</p> <p>Lakeview has been COVID free since 7/28/20</p>
Diagnostic Testing:	<p>Residents showing signs and symptoms will be tested within 24 hours.</p> <p>Associates who are showing symptoms will contact Doylestown Hospital Occupation Health to arrange for testing.</p>	<p>Resident showing symptoms will be tested at Lakeview by DON. Swab will be sent to DH lab. DON will obtain an order from PCP to be tested. Alternatively, if ordered due to severity of illness, 911 will be called and the Resident will be transported via ambulance to Doylestown Hospital for testing.</p> <p>Occupational Health will coordinate with the Associate an appointment time to come to DH for the testing.</p> <p>Volunteers are restricted until further notice.</p>

	<p>Non-essential staff and Volunteers will have to make arrangements to be tested independently.  Associates may not decline universal testing. It is part of employment to be tested for COVID-19.</p> <p>Pine Run Community is owned by Doylestown Health and Lakeview as part of our CCRC has a contract with Doylestown Hospital's lab.</p>	<p>Non-Essential staff are not permitted until Step 2 of re-opening.  Effective 6/17/20 all Associates will be tested for COVID-19 prior to employment and associates currently working will be tested as part of Universal Testing. HR policy has been developed and shared with all staff stating testing is required for employment.</p> <p>DH Lab will provide testing and results to our Infection Control Specialist.</p>
<p>Co-Horting Residents:</p>	<p>Lakeview is not able to co-hort Residents that are symptomatic and ill.</p> <p>Lakeview has capacity for 13 Residents living in our Secured Dementia Unit called The Arbor.</p>	<p>If a Lakeview Resident tests positive for COVID-19 and they are ill and/or wander, they will be transferred to Pine Run Health (our SNF) to the designated COVID unit. The Resident will remain in their room, in isolation, until the results of their test are available.  Associates will use appropriate PPE (mask, gloves, face shield and gown) when entering the Residents room. They will don and doff the PPE inside the Residents room and dispose of trash in Biohazard bins.  MD and Residents Responsible Party will be made aware of transfer.</p> <p>If a Lakeview Resident tests positive and is asymptomatic they will isolate in their room for 14 days. They will eat in their room. Associates who enter the room will wear</p>

	<p>Lakeview has capacity for 93 Residents in Lakeview Proper (regular PC).</p> <p>Current Census is 90.</p>	<p>appropriate PPE (mask, gloves, face shield and gown) when entering the Residents room. They will don and doff the PPE inside the Residents room and dispose of trash in Biohazard bins.</p> <p>PCP and family will be notified.</p> <p>PCP will also be contacted by DON to get order for COVID IgG testing to show if the virus is old or new.</p>
Screening Tool:	<p>All Associates are screened upon arrival and departure.</p> <p>Residents are screened twice daily by LPN / RN.</p>	<p>Attached please find the screening tool used by Associates.</p> <p>Temperatures and pulse ox's are monitored by nurse and documented in their electronic medical record.</p>
PPE / Infection Control:	<p>PPE is provided to all Associates.</p>	<p>We have an adequate supply of Proper PPE including:</p> <ul style="list-style-type: none"> <li>• Masks</li> <li>• Gloves</li> <li>• Gowns</li> <li>• Face shields</li> <li>• Hand sanitizer</li> </ul>
Staffing:	<p>Adequate staffing will be monitored.</p>	<p>DON will monitor staffing needs as they arise.</p>
Communal Dining:	<p>If there are no positive cases our Residents will enjoy Communal Dining.</p>	<p>We will utilize the main dining room, private dining room and courtyard café in order to ensure social distancing during meal service. We have 2 seating's, and only 2 Residents are sitting at each table. Hand sanitizer is provided prior to entering for a meal and as they leave.</p>

	<p>If an outbreak were to occur we would serve meal in the resident's room. We have 6 Residents who would need supervision during meal times.</p>	<p>Meals will be delivered to Residents room. Supervision for Residents in need will be provided in the main dining room.</p>
<p>Visitation:</p>	<p>We offer 2 Communication Windows for visits. (LV Proper and The Arbor)</p> <p>If COVID free we can provide outside Booth visits by appointment.</p> <p>Porch visits will be available on our front porch or in the Arbor Courtyard.</p> <p>Inside facility visits will occur only in STEP 3 of re-opening plan.</p>	<p>Appointments made through the Lead Concierge and Life Enrichment Department.</p> <p>Lead Concierge will schedule all appointments so proper cleaning can happen in between visits.</p> <p>There is a railing or a fence that will be between the Resident and their loved one (offering 6 feet of social distancing). All visitors and Residents must wear masks during their visit.</p> <p>Visitors will be screened prior to visit in lobby. Visits will be in lobby area in order to clean appropriately after the visit and supervise. Maximum of 2 people to visit at a time. Universal masking is required.</p>
<p>Plan to HALT re-opening (if PA reverts back to RED PHASE) Co-Horting of Residents:</p>	<p>Any Resident who tests positive for COVID-19 and is symptomatic and ill, will be transferred to our SNF, Pine Run Health Center's dedicated COVID unit.</p>	<p>If a Lakeview Resident tests positive for COVID-19 and they are ill and or wander, they will be transferred to Pine Run Health (our SNF) to the designated COVID unit. The Resident will remain in their room until the results of their test are available and transfer is set up. Associates will use appropriate PPE (mask, gloves, face shield and gown) when entering the Residents room. They will don and doff</p>

<p>Mandatory Reporting:</p> <p>Testing Plan:</p>	<p>Positive Results for asymptomatic Residents will isolate in their room for the required 14 days.</p> <p>Lakeview will submit the mandatory Tracking Form and Incident Report to DHS when a test results is positive.</p> <p>We will continue to Universally Test Associates and Residents until we are able to go 14 days with no positive results (per CDC and DOH requirements). All testing will be completed through Doylestown Hospital. Swabs and test results will be administered at DH and DH lab.</p>	<p>the PPE inside the Residents room and dispose of trash in Biohazard bins. MD and Residents Responsible Party will be made aware of transfer.</p> <p>If a Lakeview Resident tests positive and is asymptomatic they will isolate in their room for 14 days. They will eat in their room. Associates who enter the room will wear appropriate PPE (mask, gloves, face shield and gown) when entering the Residents room. They will don and dof the PPE inside the Residents room and dispose of trash in Biohazard bins. PCP and family will be notified. PCP will also be contacted by DON to get order for COVID IgG testing to show if the virus is old or new.</p> <p>Immediate notification to DHS by submitting required Tracking Form and Incident report.</p> <p>Director of Nursing and Infectious Disease Preventionist will coordinate with DH for testing and results. (staff and resident)</p> <p>Lakeview will provide all PPE to staff.</p>
--	--	---

<p>Infection Control and Personal Protective Equipment (PPE):</p>	<p>All PPE will be provided to staff. Screening tool will be utilized to monitor all staff. Residents will be screened daily.</p>	
<p>Visitor Policy:</p>	<p>All Visitors will be restricted inside and outside. Communication window, FaceTime and Skype call Assistance will be offered.</p>	<p>Lakeview will restrict all visitors. Communication Window visits, FaceTime and skype calls will be arranged through the Concierge and Life Enrichment Departments.</p>
<p>Dining:</p>	<p>If we are waiting on COVID results for a Resident, that Resident will eat in their room if safe, until the results are in. All meals will be delivered to each Residents room.</p> <p>We will have 6 Residents eating in the main dining room as they are in need of supervision.</p>	<p>While waiting on test results for Resident, Resident will have meals delivered to their room.</p> <p>Supervision will be provided to 6 Residents in the main dining room for Breakfast, Lunch and Dinner.</p>
