

To: The Garden Families and Loved Ones
From: Mary Beth Baringer, Administrator of The Garden at Pine Run Health Center
Date: November 20, 2020
Re: COVID-19 Updates: Positive Results

A handwritten signature in black ink, appearing to read "Mary Beth Baringer". The signature is written in a cursive style and is positioned to the right of the "Date:" field in the header.

This memo is to inform you that, on November 20th as part of our Universal Testing program, we learned one of our Residents tested positive for COVID-19. A short time later, we were informed that another Resident who was sent to Doylestown Hospital's Emergency Department from The Garden today also tested positive for COVID-19.

- We will provide all meals in the Residents' rooms. Group activities have stopped. Visits will not be permitted until we have 14 consecutive days without a positive COVID-19 test result.
- We continue to actively monitor our Residents for signs and symptoms of COVID-19, and all Residents will be screened for COVID-19.
- All of our Associates continue to follow public health recommendations to reduce the risk of spreading COVID-19. These include strict handwashing procedures, wearing face masks and face shields, and wearing gloves when interacting with Residents.
- All Associates and Residents are also being tested for COVID-19.

The Garden Team will continue to work diligently to do all we can to keep this virus at bay, and I will continue to inform you of any additional information I receive.

As always, thank you for your continued patience, understanding and support during these difficult times.
