

**The Garden at Pine Run Health Center Re-opening Step3**

**Updated for 11/11/2020**

<p>Baseline Universal Testing for COVID-19 for all residents and all staff was concluded on 7/11/2020 with NO positive cases identified.                  No Garden resident has had a positive test result since 5/22/2020                  No Garden staffer has had a positive test result since 10/9/2020 and in 14 days of testing, all staffers and residents COVID-19 tests have come back negative.                  Bucks County PA positivity rate is now 6.2% and so we will be COVID testing associates weekly.                  The Garden at Pine Run Health Center is NOT experiencing staff shortages.                  PPE supplies remain adequate.                  Essential cleaning and disinfection supplies are available and in use to care for residents and their environment                  Doylestown Health continues to have adequate supply testing supplies for COVID-19                  Doylestown Hospital has bed capacity to handle care for COVID-19 patients</p>		
Dining:	<p>Communal Dining is limited to Residents unexposed to COVID-19.                  Residents may eat in Dining Room, Private Dining Room. Large tables have been created by combining smaller tables to insure six feet distance between residents and by limiting 2 persons per table and tables are spaced 6 feet apart. Two rolling seatings are provided to insure staggered arrival and departure times and insure a limited number of people in the dining room to insure social distancing.                   Infection Control Precautions are in effect.</p>	<p>This went into effect upon knowing that all residents tested negative with universal testing on 10/27/2020</p>
Activities	<p>Group activities may be held with residents unexposed to COVID-19                  Social Distancing is maintained (to insure adequate spacing the living room or outdoors on our patio as space permits).                  Hand hygiene is utilized                  Universal masking is strongly encouraged. Due to the nature of residents with dementia not fully understanding, if masking cannot be accomplished associates will do their best to insure social distancing.                  Large group activities are enhanced by one on one visits and small groups in the activity room.</p>	<p>11/11/2020</p>

<p>Non-essential Personnel</p>	<p>Essential Contractors:          100% of people entering the facility are screened at the start and end of each shift          All wear face masks          All are questioned about symptoms          All observe for any symptoms, will go through          Beauty Salon services may return 10/28/2020 with appropriate IC practices in place</p>	<p>10/27/2020</p>
<p>Volunteers</p>	<p>Volunteers are allowed only for the purpose of assisting with outdoor visitation protocols and may only conduct volunteer duties with residents unexposed to COVID-19. Screening, social distancing, and additional precautions including hand hygiene and universal masking are required.</p> <p>Baseline COVID-19 testing will be required but may not be provided by Pine Run. Health screening will be completed upon entry and exit of campus.</p>	<p>10/27/2020</p>
<p>Visitation</p>	<p><b>Visitation Guidelines:</b> All visitors must wear face masks during their entire visit, use an alcohol-based hand sanitizer before and after the visit, maintain a social distance of a minimum of six feet, stay in their designated facility visiting location, sign in and provide contact information if coming indoors and sign out upon departure, and adhere to screening protocols. Visitations may not occur during mealtimes which are approximately 8am-9:30am, Noon-1:30pm, and 5-6:30pm</p> <p><b>Outdoor visitation is preferred when weather permits</b> utilizing the Garden patio under the awning or umbrellas. Times should be scheduled through the life enrichment department by calling 215-340-5234 weekday business hours or emailing <a href="mailto:ereinert@pinerun.org">ereinert@pinerun.org</a>. Please schedule weekend visits by contacting our life enrichment department by noon on Fridays. Team members will evaluate if a resident can safely accept visitors in this capacity. The number of visits may be limited to insure all families have opportunity to visit regularly. There will be a limit of 3 visitors outdoors at a single time.</p> <p><b>Window visits in the neutral zone of first floor lobby or elevator lobby</b> may also be scheduled through our life enrichment department utilizing the same parameters as above.</p>	<p><b>Currently in effect Available outdoor visitation times:</b>          Sat-Sun: 9am, 10am, 1pm          M&amp;F: 10am, 1pm          Tu-Th: 10am, 11:15am, 1pm, 3:30pm, and 6pm.          (This is subject to change based on staffing and census changes)</p> <p><b>Effective 11/12/2020: 1<sup>st</sup> floor lobby visits</b>          Monday, Thurs, Fri by appointment.</p>

	<p><b>Alternative Options:</b> We continue to offer the following options:</p> <ul style="list-style-type: none"> <li>• Electronic visitation utilizing Skype, FaceTime, Zoom, etc.</li> <li>• Plexiglas booth Patio visits, allowed only by appointment utilizing the visitation Plexiglas booth, following social distancing, universal masking, disinfection of area, etc.</li> </ul>	<p><b>Elevator Lobby Visiting days/hours:</b>                  Sun-Sat: 10am-11:30am                  Sun-Sat: 1:30pm-4:30pm                  Tue-Thur: 6:30pm-7:30pm</p> <p>Contact Life Enrichment to schedule</p>
<p>Outings</p>	<p>Generally, all outings for non-medical reasons and LOA's remain restricted. See below for additional considerations:</p> <p style="text-align: center;"><i>The Garden's Guidelines for consideration of Outings for Non-Medical Reasons</i></p> <p>The Garden has considered guidelines to include precautions for outings for nonmedical reasons. We will consider those scenarios that need to be further assessed on a case by-case basis, but generally we believe residents of The Garden are not appropriate to go out for non-medical reasons. Considerations for development of these guidelines and considerations that we will make for individual assessments include: a. The extent to which infection prevention and control precautions (including universal masking, hand hygiene, and social distancing) are achieved based on the circumstances of the outing. (We believe that due to the nature of dementia, most residents would not be able to follow these guidelines); b. The resident's level of vulnerability due to any chronic or immunocompromised conditions; and c. Duration of the outing, including whether it includes an overnight stay or travel to another state (consideration as to whether the resident could quarantine in their room for 14 days as recommended upon return) and whether the outing is to an outdoor event.</p> <p>Other considerations for individual exceptions: If the outing poses a high risk based on a number of factors (below), testing may be appropriate. Ideally, wait at least 2-3 days following the outing to perform testing. Factors of a high-risk outing may include these possible scenarios: Substantial community spread in the area(s) visited (≥10% county positivity rate) AND e. A gathering of more than 10 people AND Failure of consistent universal masking for the duration of the outing OR o Failure of physical distancing from resident (for example, hugging or riding in a vehicle with unmasked persons).</p>	<p>10/27/2020</p>

Non-essential healthcare personnel	<p>Podiatrist may provide services.          Eye doctor has returned to provide services.          Dentist returned for services 8/3/2020 however they were not scheduled for service during this most-recent exposure. Our dental provider follows CDC recommendations for risk assessment of clinicians, staff, and patients, as published in the “Interim U.S. Guidance for Risk Assessment and Public Health Management of Healthcare Personnel with Potential Exposure in a Healthcare Setting to Patients with Coronavirus Disease (COVID-19)”</p> <p>All non-essential healthcare personnel are screened upon entry to campus, utilizes hand hygiene and appropriate PPE including facemask and practice infection control guidelines provided by government authorities such as CDC for their area of specialty.</p>	Updated 10/27/2020
Medically necessary trips	<p>If appropriate, telehealth visits are encouraged. If going out:          The resident must wear a cloth or surgical face mask          PR will provide transportation services as needed.          The Garden at PRHC will share COVID status with outside transportation services          Family members accompanying residents must be fully masked throughout the trip and socially distance whenever able.</p>	11/11/2020
Staff Screening	<p>100% of people entering the facility are screened at the start and end of each shift          All wear face masks          All wear face shields with resident contact          All are questioned about symptoms          All observe for any symptoms          While Bucks County is in a yellow phase or 5-10% positivity, we will be testing associates weekly.</p>	Currently in effect
Resident Screening	<p>All residents are screened daily:          Temperature checks and Blood oxygen levels are obtained two times a day          Staff monitor residents for other symptoms and report and concerns to physicians          Residents with outside contact will be COVID-19 tested weekly</p>	Currently in effect
Remaining plans unchanged	<p>Positive COVID-19 cases would be evaluated for most appropriate care level based on symptoms and behaviors that may compromise safety of others. Options may include PRHC skilled nursing, Doylestown Hospital, their own private room, or co-horted area of the Garden – rooms 528, 529 and 530.          Symptomatic staff or residents will be COVID tested          All staff continue to follow infection control practices and wear appropriate PPE</p>	Currently in effect
