

**To:** The Garden at Pine Run Health Center Residents, Designated Persons, Family Members and Loved Ones

**From:** Mary Beth Baringer, Administrator of The Garden

**Date:** January 7, 2021

**Re:** COVID-19 VACCINE UPDATE

---

In a previous memo sent on December 23<sup>rd</sup>, I informed you about our partnership with CVS / Omnicare about vaccinating all of our Residents for COVID-19. We have received notification from Doylestown Health with wonderful news enabling our residents to be vaccinated sooner. **Our Health System will be providing our Resident's with the COVID-19 vaccine most-likely the week of January 11, 2021.**

**COVID-19 Vaccination Requirements:**

- **Please sign the attached consent form.** We are requiring a signature from you and your loved one on the attached consent form.
  - Even if your loved one is able to sign for themselves, we still require your signature acknowledging you are in agreement for your loved one to receive the vaccine.
  - We will also have each Resident (if able) sign the consent.
- Please return the consent to us by Tuesday, January 12<sup>th</sup>.
- Please provide us with copies (front and back) of your loved one's Medicare, Medical and Prescription coverage cards (if you haven't done so already) in order for us to bill appropriately.

Thank you for your continued support and willingness to adapt to all the changes that are happening so quickly. Having our Residents vaccinated as soon as possible is our top priority!

Wishing you a very Happy, Healthy and Safe New Year!!!!
