Pine Run Lakeview works with residents and their families to provide the best care around the clock that is also affordable. Outstanding amenities and services are included in our pricing for all residents. Those who may require enhanced levels of care have additional service charges to help insure that no resident pays more than they need to until the extra care is required.

Pine Run realizes that financial challenges can sometimes stand in the way of making the best healthcare decisions. Experienced staff in social and financial services are available to help families explore all possible solutions.

TAX DEDUCTIBILITY BENEFIT

Current tax law provides that an individual can deduct from taxable income certain medical expenses associated with living in a personal care home. This deduction may apply for adult children or other family members who are paying a portion of a resident's costs associated with living here. Consultation with a tax professional is advised.
